

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. WORKS RELATING TO AMERICA.

All in octavo or lesser sizes, unless otherwise mentioned.

- 704 Phillips (S. M.) Treatise on the Law of Evidence. Second American Edition, with notes and references to American Authorities, Vol. 2. *New York*, 1823
- 705 Philoponus (Honorius) Nova Typis Transacta Navigatio. Novi Orbis Indię Occidentalis, *curious plates* folio, 1621

The name PHILOPONUS is a pseudonym, the real name of the author being *Caspar Plautus*, the same to whom the work is dedicated in a most fulsome and commendatory preface. A grosser piece of literary impudence is scarcely to be met with. The author was a monk at Lintz; he handles the old fathers of American History without gloves, and in turn is so treated by WINCKELMAN. He calls the Brothers De Bry liars. Some of the plates are curious: the engraved title contains portraits of St. Brandon and Father Boyl, the latter of whom accompanied Columbus on his second voyage.

WORKS RELATING TO AMERICA.

All in octavo or lesser sizes, unless otherwise mentioned.

- 704 Phillips (S. M.) Treatise on the Law of Evidence. Second American Edition, with notes and references to American Authorities, Vol. 2. *New York*, 1823
- 705 Philoponus (Honorius) Nova Typis Transacta Navigatio. Novi Orbis Indiæ Occidentalis, *curious plates* folio, 1621

The name PHILOPONUS is a pseudonym, the real name of the author being *Caspar Plautus*, the same to whom the work is dedicated in a most fulsome and commendatory preface. A grosser piece of literary impudence is scarcely to be met with. The author was a monk at Lintz; he handles the old fathers of American History without gloves, and in turn is so treated by WINCKELMAN. He calls the Brothers De Bry liars. Some of the plates are curious: the engraved title contains portraits of St. Brandon and Father Boyl, the latter of whom accompanied Columbus on his second voyage.

SPLENDID SPECIMEN OF BINDING, EXECUTED FOR THE FAMOUS GROLIER, and having his motto, "PORTIO

MEA DOMINE, SIT IN TERRA VIVENTIUM." This magnificent volume, while bearing the usual characteristics of this famous school of binding, presents some unusual features, and such as have escaped the research of M. Leron de Lincy. At the date of its execution Grolier must have attained the venerable age of 83, and this specimen of the binder's art, executed for him at the close of his long career, shows an unflagging zeal in his artistic hobby and the fruit of years of experience and true taste. The variety of ornament, and its refined application, alike ingenious and graceful, must command the highest admiration. What little of restoration this beautiful volume required has been effected with skill not unworthy of the original artist.
